Vision & Mission

Vision

- To be the preferred choice of students who aspire to become Engineers of the highest calibre.

Mission

- Provide world-class physical and digital infrastructure and learning environment.
- Develop the competencies of students to make them job-ready and entrepreneurs.
- Facilitate mental, physical, emotional and spiritual development of students and ensure their holistic development.
- Preserve the environment through the implementation of eco-friendly and sustainable practices.
- Serve the community through skill development and other need-based services.
- Establish sustainable partnerships with industries and R&D laboratories for mutual benefit.

1.INTRODUCTION

Mount Zion College of Engineering and Technology is an educational institution located in Pilivalam P.O, Lena Vilakku of Pudukkottai, Tamil Nadu with an area of around 38 Acres with a strength of 1200 including students and staff. As a responsible technical institution, environmental review and management is made as a part of the curriculum for the students of Civil engineering, in addition to the mandatory course of environmental science for all branches of engineering.

2.OBJECTIVES

Air, water and soil samples are periodically collected and assessed by the students as a part of their laboratory sessions using standard protocols and the findings are recorded. In addition to this, samples are collected and handed over to an environmental auditing agency for evaluation. The audit reports are critically analyzed and appropriate measures are initiated from time to time to provide the best quality of water, air and renewable energy for the activities of the institutions.

3.DESRIPTION OF POLICY

- Optimal use of all natural resources and avoid wastage.
- Maintain the quality of the resources for better health.
- Inculcate environmental consciousness among the stakeholders to avoid pollution and abuse of resources.
- Adoption of green environmental practices like use of solar power, nurture biodiversity, improve greenery in and around the campus, avoid plastic use, rain water harvest, proper use of public transport and others.
- Strict promotion and adherence to Reduce, Reuse and Recycle.

-
- To count CO2 emissions generated by our means of transportation – vehicles.
 - To reduce local air pollution emissions using environment-friendly vehicles including bicycles public transportation and use of pedestrian-friendly roads.
